Company and Application Overview

Cinema City Israel is one of the leading cinema chains in the country, offering a first-class movie experience with advanced technologies such as enhanced sound systems, wide panoramic screens, and laser projection for sharper, more vivid images. With locations in major cities, it showcases a wide selection of films, from the latest blockbusters to international releases. For premium experience, Cinema City also offers VIP theaters, providing luxurious seating and personalized service. The Cinema City app makes it easy for users to check showtimes, watch trailers, and conveniently book tickets from anywhere using their phone.

Purpose

The project focused on the Cinema City Israel app, a native application available only for iOS. Comprehensive testing was conducted to evaluate the app's functionality, design, user interface (UI), and user experience (UX). The primary objective was to ensure that the app operates smoothly, is intuitive, and provides a seamless user experience, with particular emphasis on its core processes.

This document aims to summarize the testing process and its findings, highlighting the tools and methods used, including the "TestRail" and "Jira" platforms. It provides a detailed overview of test cases, identified bugs, and the analysis of collected data.

Types Of Testing

Functional Testing:

Ensuring that all functions within the app work properly, particularly the critical actions—navigation between pages through the menu, clicking on links, and the ticket purchasing process, including seat selection, ticket type, and entering personal details.

User Experience (UX) Testing:

Ensuring that the app is easy to use with intuitive navigation, and that the purchasing process is clear and quick. Additionally, tests were conducted for mobile device compatibility, such as pinch and swipe actions, screen rotation, and more.

User Interface (UI) Testing:

Ensuring that the app looks good, with colors that blend well, readable fonts, and all images in place. Tests were also performed for mobile device compatibility, such as image resizing to fit the screen in both portrait and landscape mode, ensuring text adjusts properly and displays fully on the screen in both orientations, and more.

Integration Testing:

The purpose is to ensure the system communicates properly with external services. Since this is a purchasing app, it is crucial to test the integration with payment systems and chat support functionality.

Network Connectivity Testing:

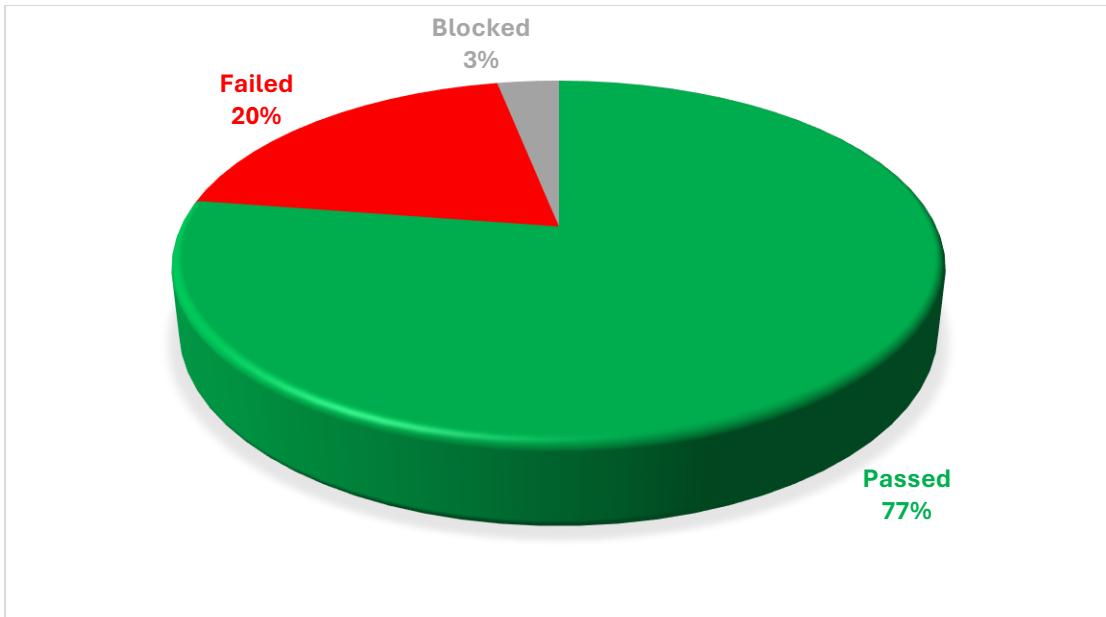

The app was tested to ensure proper functionality on different network connections, including both mobile data and Wi-Fi. The purpose of this testing was to verify that the app performs consistently and smoothly across various network types, without any performance or connectivity issues.

Charts and Metrics

Test Cases Status

This chart displays the total number of test cases performed on the application, broken down by tests that passed/failed.

Passed	Failed	Blocked	Total
199	50	8	257

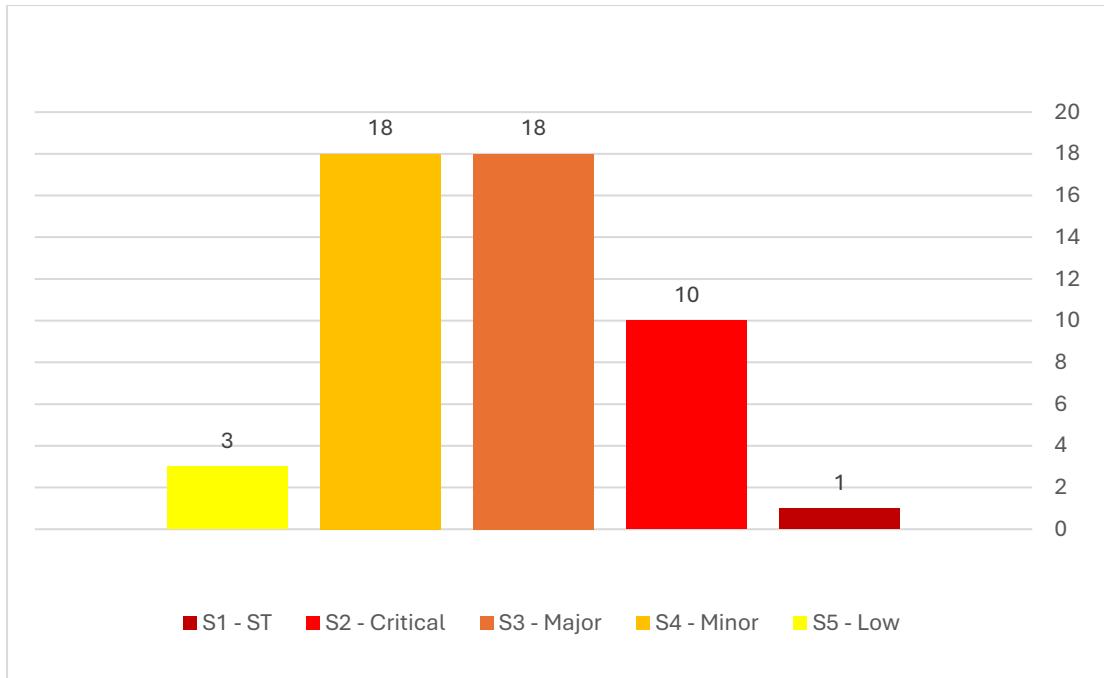

The data indicates that 97% of the tests were executed, while the remaining tests were not executed due to being blocked. Of the executed tests, **77%** passed and **20%** failed.

Bugs divided by Severity

This chart displays the distribution of bugs by their severity

S1 - Show Stopper	S2 - Critical	S3 - Major	S4 - Minor	S5 - Low	Total
1	10	18	18	3	50

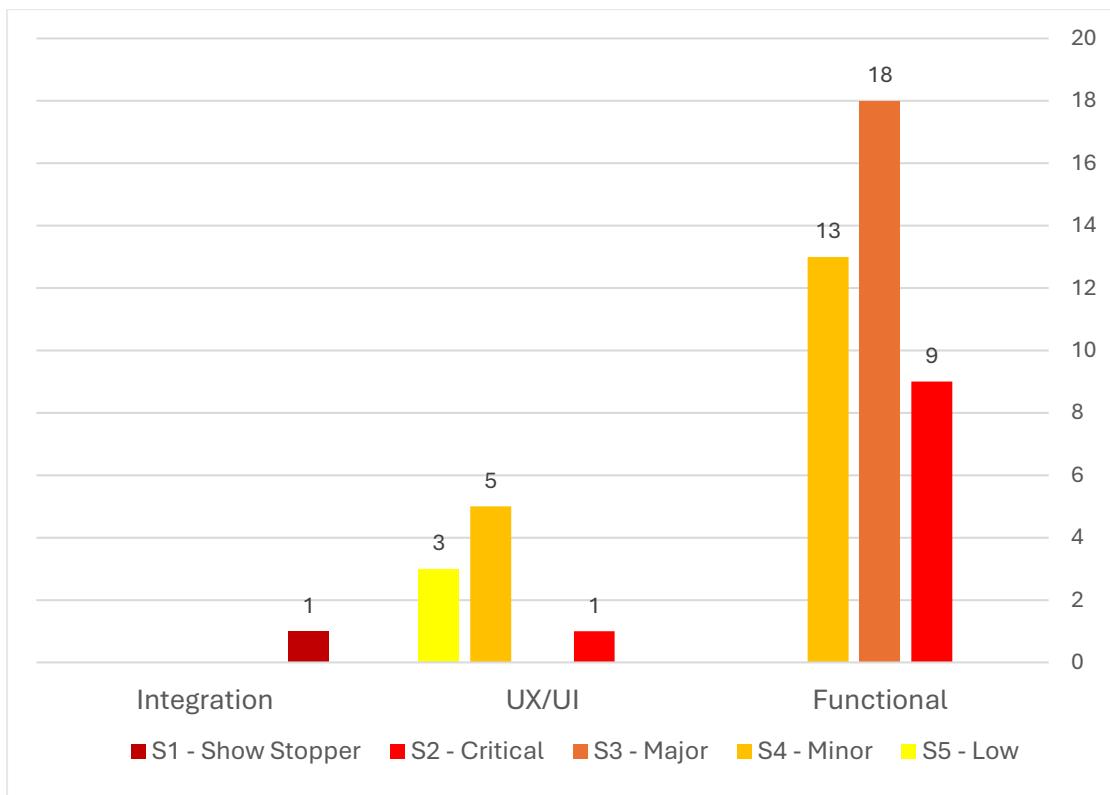

From this data, we can see the distribution of bugs by their severity level. There is **1 bug** with a **Show Stopper** severity level, **10 bugs** with a **Critical** severity level. Additionally, most of the bugs are divided between 'Major' severity (18) and 'Minor' severity (18), and 3 bugs at the Low severity level.

Test type VS. Severity

This chart displays the distribution of bugs by test type/ severity

	S1 - Show Stopper	S2 - Critical	S3 - Major	S4 - Minor	S5 - Low	Total
Functional	0	9	18	13	0	40
UX/UI	0	1	0	5	3	9
Integration	1	0	0	0	0	1
Total	1	10	18	18	3	50

The data shows that most of the identified bugs are functional bugs (40), primarily with a Major severity level (18), including **one bug** with a **Show Stopper** severity level, and **9 Critical** severity **bugs**.

In the UX/UI category, there are 9 bugs with the following severity levels: Critical (1) Minor (5) and Major (3).

Additionally, there is **one integration bug** with **Critical** severity.

Test Environment & Tools

App Name	סינמה סיטי Cinema City
OS	iOS 18.2
Device	iPhone 15
App Version	2.3

Exit Criteria:

- No **Show Stopper** severity level bugs.
- All **Critical** severity level bugs are fixed.
- The number of **Major** severity level bugs will not exceed 20.
- Most open bugs will not be functional issues.
- 90% of the written test cases have been executed.

Recommendations:

1. Currently, the app is unusable: It is **not possible to book tickets**- the credit card and PayPal payment forms fail to open, making it impossible to complete a purchase. **This issue must be resolved immediately.**
2. Another significant issue requiring urgent attention: **The process gets stuck** at the seat selection stage. This problem must be resolved as soon as possible!
3. **Optimize for landscape orientation:** Adapt text and images to ensure proper display when the screen is rotated to landscape mode.
4. **Enhance form validation:** Improve form validation in the app to handle input more effectively and provide clear error messages for incorrect entries.
5. **Fix missing pages:** Repair non-displayed pages, such as " **כנסים**" and " **איירועים**" and " **Giftcards-איס-**" ensuring they load correctly and provide relevant content.
6. **Correct banner links:** Update and fix banner links to ensure they redirect users to the appropriate pages, improving navigation and user experience.

Summary and Conclusions

After performing comprehensive testing on the Cinema City app, bugs were found in almost all areas tested. A total of 50 bugs were identified with varying levels of severity:

- One **SHOW STOPPER** severity bug, which directly impacts the ability to book tickets for movies/shows.
- 10 **CRITICAL** severity bugs, which also directly affect critical processes in the app, such as the inability to select seats, proceed with the booking process, pay via PayPal, check an existing booking or cancel it, and the inability to order gift cards/vouchers for entry, among others.
- 18 **MAJOR** severity bugs, representing issues that have a noticeable impact on user experience.

Breakdown of Bugs vs Severity Level:

- **40 functional bugs:** Issues that directly affect the proper functionality of the app, such as pages not displaying and appearing as blank pages, actions that cannot be performed (accessing the personal area, progressing through purchase stages, sharing with other apps, unvalidated forms..)
- **9 UX/UI bugs:** Deficiencies that affect the user experience and aesthetics of the site, some of which are prominent and impact usability and appearance (text overlapping text, images not adjusted to the screen..)
- **INTERFACE bug:** A malfunction in connecting to the PayPal payment site, a critical bug that prevents payment using this method.

Conclusions:

The app is functioning reasonably but does not fulfill its primary purpose: purchasing movie tickets. The ratio of failed tests (20%) compared to successful tests (77%) indicates significant issues with the app:

1. The presence of a **SHOW STOPPER** bug—central functionality not working.
2. A high number of **functional bugs**, primarily at the **CRITICAL** and **MAJOR** levels, affecting the core activities of the App.
3. Numerous **CRITICAL** and **MAJOR** bugs significantly impact user actions and processes, thus affecting the user experience and satisfaction.

Final Conclusion:

The number and nature of the bugs discovered are substantial enough to prevent the release of this version at this stage. The critical and major issues must be addressed and prioritized for resolution. Following these fixes, it is essential to conduct another round of testing to ensure that the issues have been properly resolved and to improve the overall user experience.

Given the current situation, **I don't recommend proceeding with the release of this version** until the necessary corrections and optimizations are made.

<u>SCC-50</u>	Scrolling Issue on Movies Page: Booking Window Not Reachable in Landscape Mode	Minor

[SCC-50] [Scrolling Issue on Movies Page: Booking Window Not Reachable in Landscape Mode](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to Reproduce:

1. Enter the movie page "200%"
2. Click on the "lezmannat crtisim" button.
3. Switch the screen to landscape mode.
4. Click on "lezmannat crtisim" button to reach the booking window.

Expected Result:

The page should scroll smoothly to the booking window, regardless of screen orientation.

Actual Result:

The page doesn't scroll down to the booking window in landscape mode.

Attachments:

Clicking on "lezmanet kritsim" when the screen is in landscape mode does not lead to the booking window.

Example of screen display when the screen is in portrait mode – it scrolls to the appropriate window.

[SCC-49] Text Not Fully Displayed and Images Cut Off on "סרג'יטים ומכפיצים Page

Status:	To Do		
Project:	<u>STR- Cinema City</u>		
Type:	Bug	Priority:	Medium
Reporter:	<u>עלי ביליג</u>	Assignee:	<u>עלי ביליג</u>
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S5- Low		

Description

Steps to Reproduce:

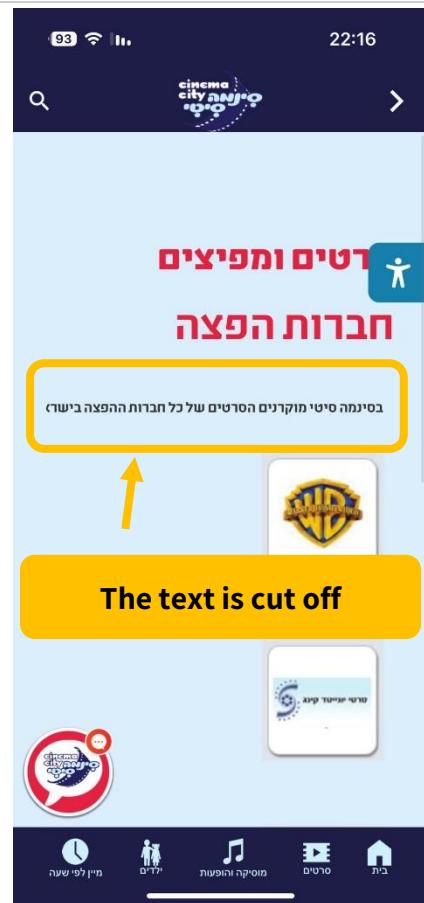

1. Open the "סרג'יטים ומכפיצים" page from the menu.
2. Observe that the text doesn't display fully on the page.
3. Rotate the screen to landscape mode and notice that part of the text becomes visible.
4. Observe that the images are cut off when the screen is rotated.

Actual Result:

The text is incomplete, and images are cut off when the screen is rotated

Expected Result:

The text should be fully visible without any cutoff, and images should resize and display correctly regardless of the screen's orientation.

[SCC-48] Spelling Error in "VIP חדרה" Page

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Low
Reporter:	עליז בילוג	Assignee:	עליז בילוג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S5- Low		

Description

Steps to Reproduce:

1. Open the Menu.
2. Scroll down and click on "VIP חדרה" page.
3. Search for the spelling error in the second paragraph.

Actual Result: There is a spelling error in the second paragraph- “על גבע”

Expected Result: The words will be written correctly ".על גבי".

Attachments:

[SCC-47] The reCAPTCHA Checkbox Not Clickable in Form - "צור קשר" מפתח אתר לא חוקי" Error

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עלוי בילג	Assignee:	עלוי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S2- Critical		

Description

Steps to Reproduce:

1. Navigate to the "צור קשר" form.
2. Click the reCAPTCHA checkbox to verify that you are not a robot.

Actual Result:

The "I'm not a robot" (reCAPTCHA) checkbox is not clickable, and the error message "מפתח אתר לא חוקי" is displayed. This prevents users from submitting the "צור קשר" form.

Expected Result:

The "I'm not a robot" (reCAPTCHA) checkbox should be clickable, allowing the user to verify and submit the form.

Attachments:

[SCC-46] Emoji Input Allowed in "שם מלא" Field on Page Without Error Message

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the "שם מלא" field in the form.
4. Enter the Emojis "😊 😊" in the "שם מלא" field.
5. Fill in the other required fields.
6. Submit the form.

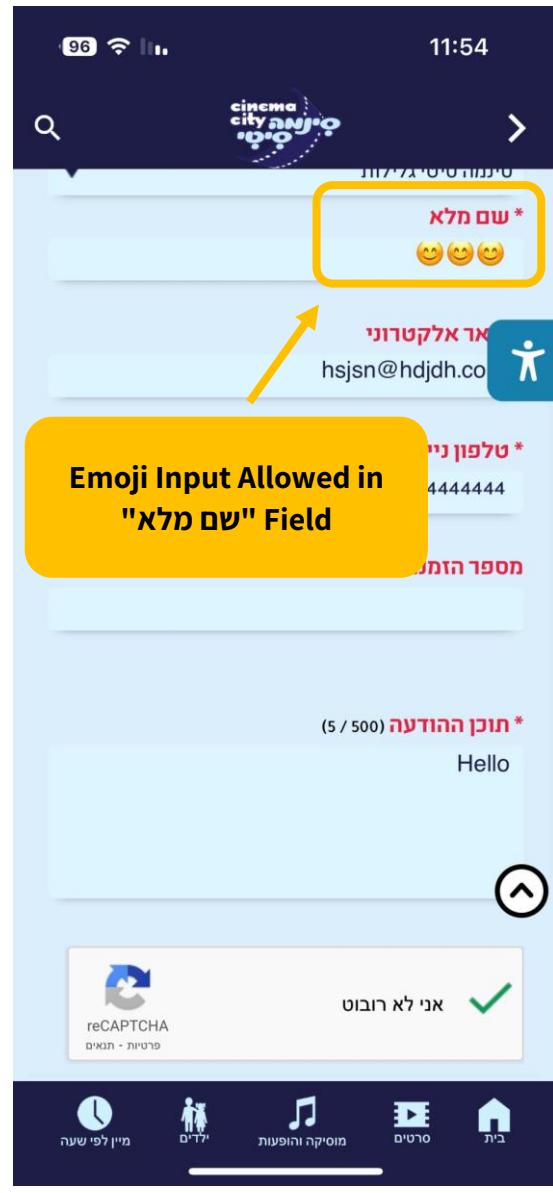

Actual Result:

The system allows the input of emojis in the "שם מלא" field without an error message.

Expected Result:

The system should allow only alphabetic characters in the "שם מלא" field and block emojis with an error message.

Attachments:

**[SCC-45] Invalid Input in "מספר הזמנה" Field on Page
(Letters, Emojis, and Special Characters Allowed)**

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the "מספר הזמנה" field in the form.
4. Enter letters, emojis, or special characters (><%#@&!? 😊 😃 ☺ ☻ ☻Aa) in the "מספר הזמנה" field.
5. Fill in the other required fields.
6. Submit the form.

Actual Result:

The system allows input of letters, emojis, and special characters in the "מספר הזמנה" field without any error message or validation.

Expected Result:

The "מספר הזמנה" field should accept only numeric values. The system should block any non-numeric input (including letters, emojis, and special characters) and display an error message.

Attachments:

**[SCC-44] Invalid Phone Number Submission in "צור קשר" Form
(Without valid 05X prefix)**

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the "טלפון נייד" field in the form.
4. Enter the invalid phone number- "1111111111"
5. Fill in the other required fields.
6. Submit the form.

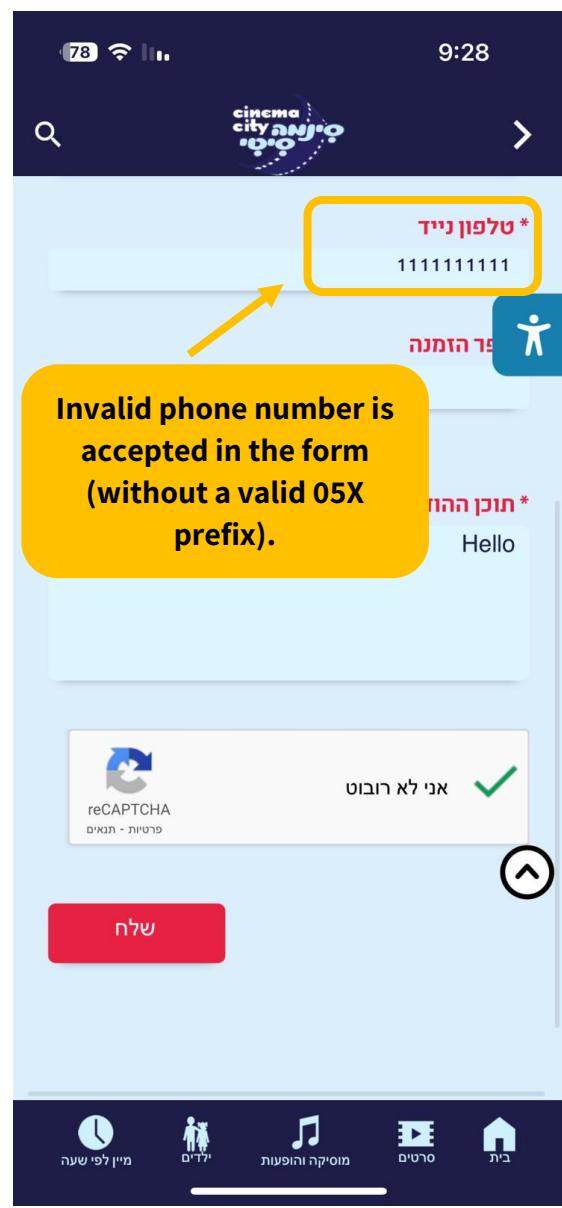

Actual result:

The form accepts the phone number, even though it is invalid (less than 10 digits), and no error message appears.

Expected result:

The system should validate the phone number and display an error message if it lacks a valid 05X prefix, preventing the submission of the form.

Attachments:

[SCC-43] Invalid Phone Number Submission in "צור קשר" Form (less than 10 digits)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Medium		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the "טלפון נייד" field in the form.
4. Enter the invalid phone number- "05455"
5. Fill in the other required fields.
6. Submit the form.

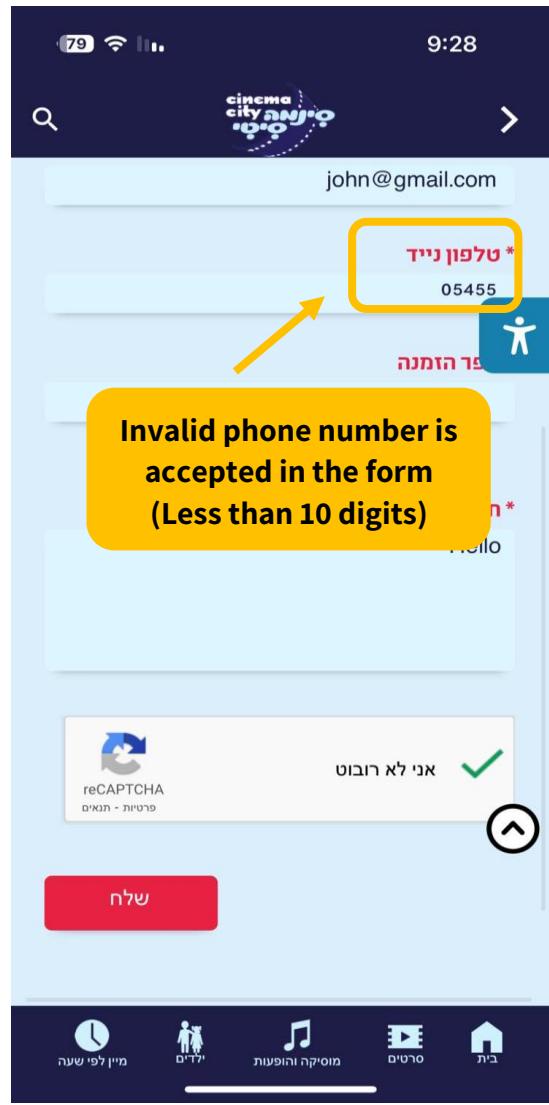

Actual result:

The form accepts the phone number, even though it is invalid (less than 10 digits), and no error message appears.

Expected result:

The system should validate the phone number and display an error message if it is less than 10 digits and should not allow the form to be submitted.

[SCC-42] Invalid Email Submission in "צור קשר" Form (Email without a domain extension and with special characters)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the email field in the form.
4. Enter the invalid email "com@&!\$."
5. Fill in the other required fields.
6. Submit the form.

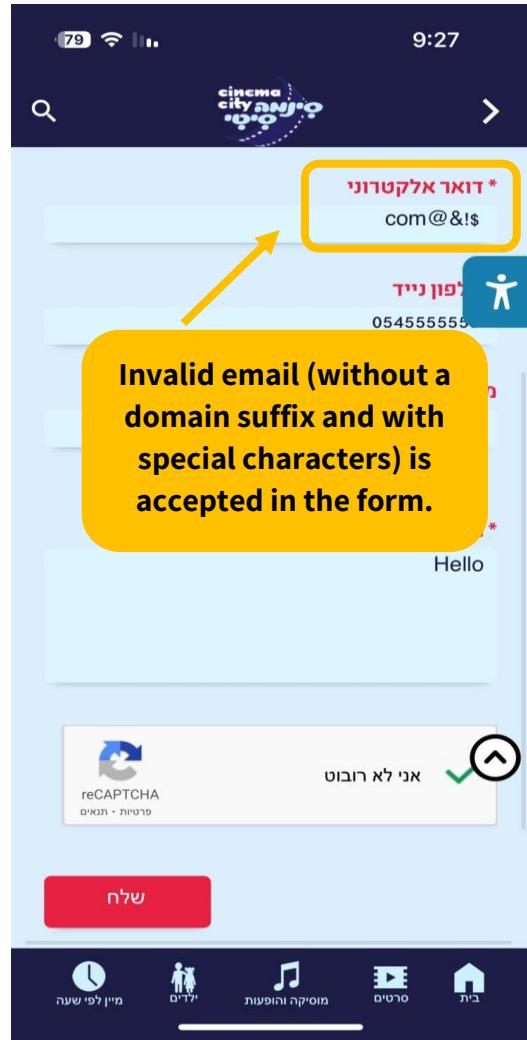

Actual Result:

The form accepts the invalid email without displaying an error message and allows submission.

Expected Result:

The system should recognize invalid input, display an error message, and not allow further action without correcting the input. A situation where an invalid email can be entered might disrupt further communication.

[SCC-41] Invalid Email Submission in "צור קשר" Form (Email Address Without a Valid Domain Extension)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to Reproduce:

1. Open the main menu.
2. Scroll down and click on the "צור קשר" page.
3. Locate the email field in the form.
4. Enter the invalid email "asdf@asdf."
5. Fill in the other required fields.
6. Submit the form.

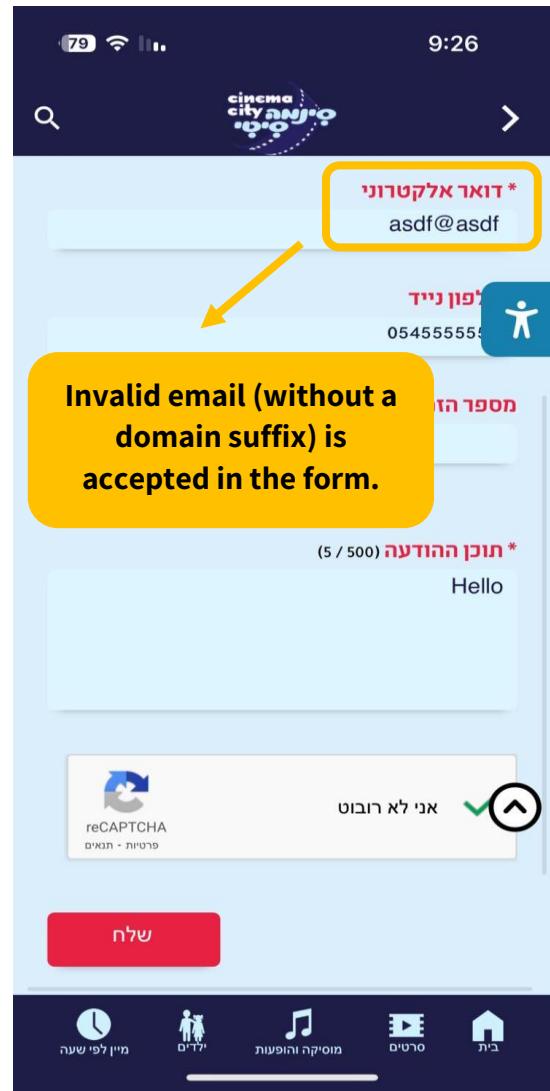

Actual Result:

The form accepts the invalid email without displaying an error message and allows submission.

Expected Result:

The system should recognize invalid input, display an error message, and not allow further action without correcting the input. A situation where an invalid email can be entered might disrupt further communication.

[SCC-39] [PayPal Payment Link Fails to Open - Purchase Cannot Be Completed](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Highest
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		

Severity:	S2- Critical

Description

Steps to reproduce:

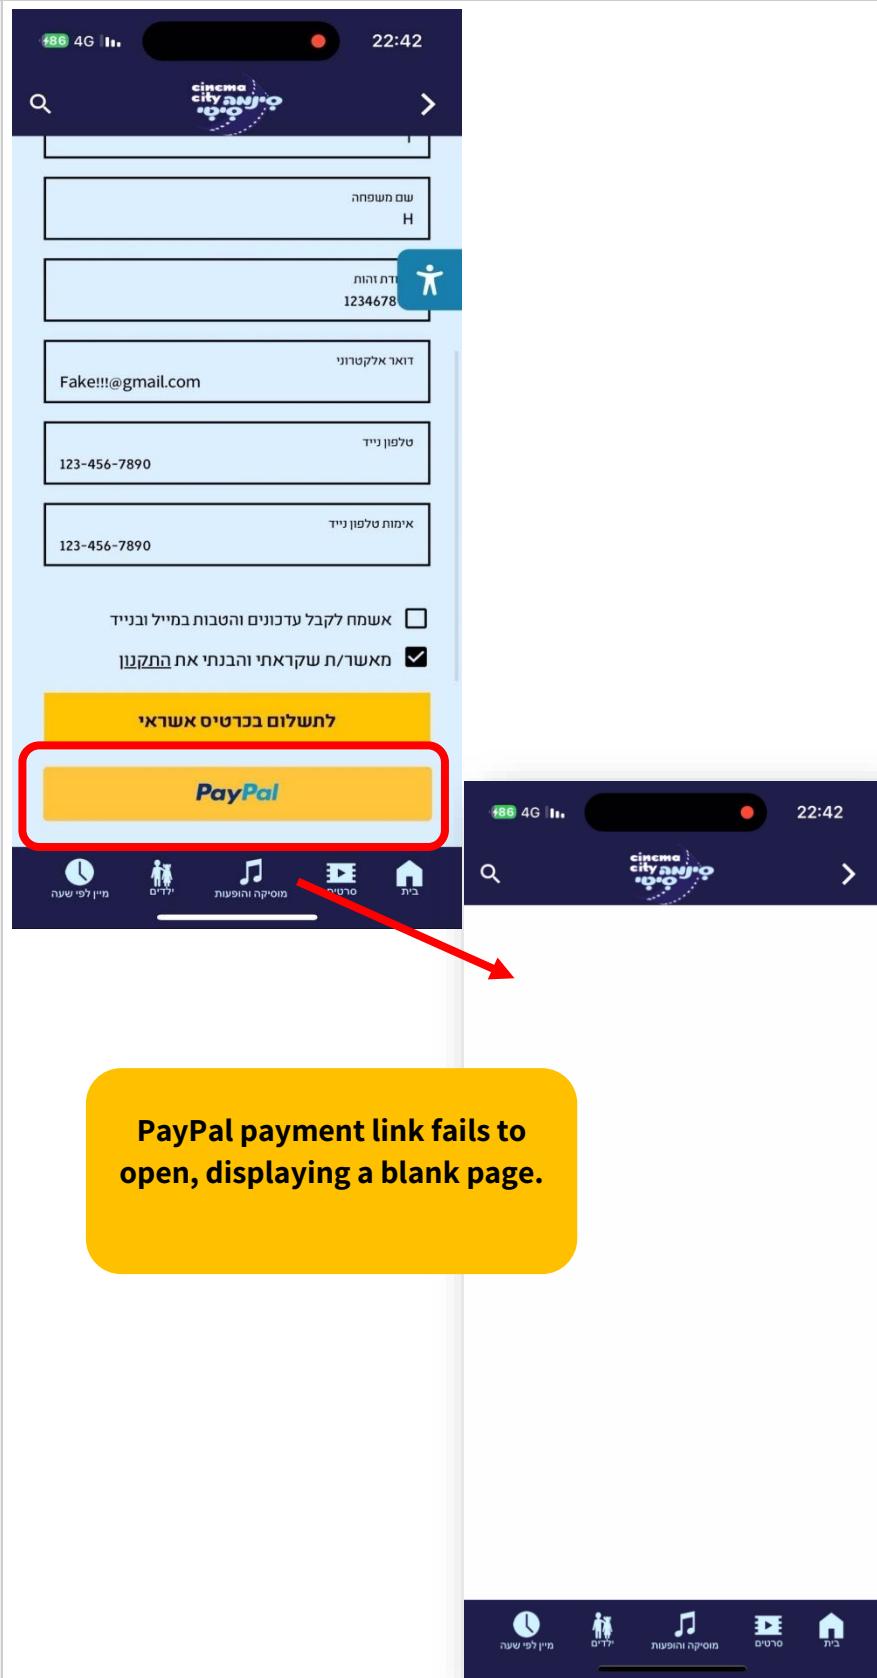

1. Open the app.
2. Select a cinema (סינמה סיטי כפר סבא), date (17.1.25), movie (המסדר), and time (21:50).
3. Choose valid seats and proceed to the "פרטים ותשלומים" page.
4. Fill out all required fields.
5. Click on "PayPal" button

Actual Result:

Clicking the PayPal payment option doesn't open the payment link, and the user cannot proceed to complete the purchase.

Expected Result:

Clicking on the PayPal payment option should redirect the user to the PayPal payment page, allowing the transaction to be completed successfully.

[SCC-38] Credit Card Payment Form Fails to Open- Blocks Purchase Completion

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Highest
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S1- Show Stopper		

Description

Steps to reproduce:

1. Open the app.
2. Select a cinema (סינמה סיטי כפר סבא) date (17.1.25), movie (המ品德ר), and time (21:50).
3. Choose valid seats and proceed to the "פרטים ותשלום" page.
4. Fill out all required fields.
5. Click on "תשלום בכרטיס אשראי."

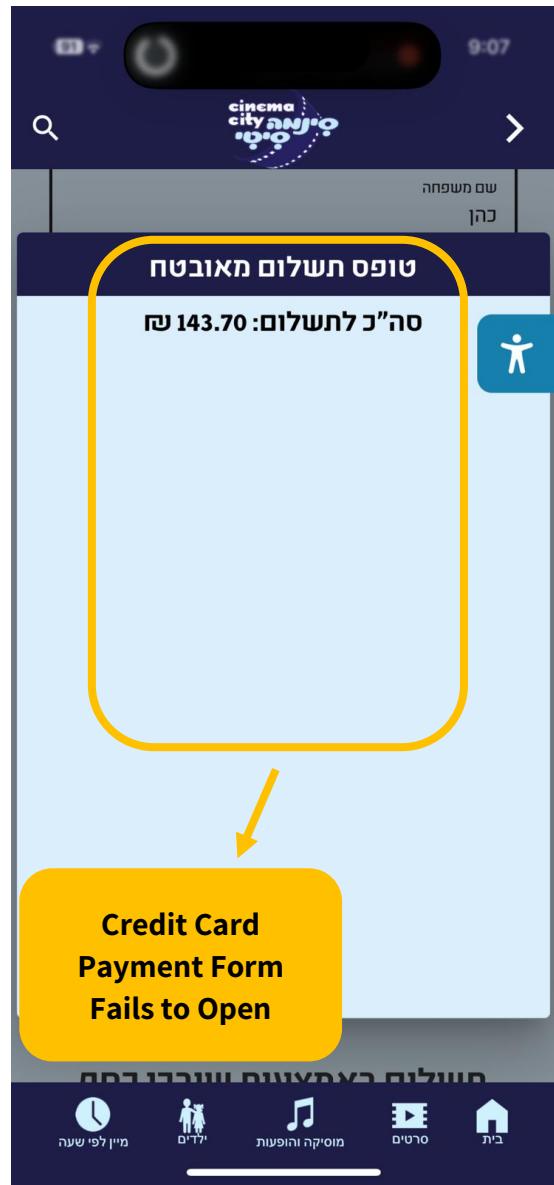

Actual result:

Clicking the credit card payment option doesn't open the credit card form, preventing the user from completing the purchase.

Expected result:

Clicking on the credit card payment option should open the corresponding form, allowing users to enter their credit card details and complete the purchase.

[SCC-37] [\[צור קשר\]](#) Page Not Displaying Properly in Landscape Mode

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי בילג	Assignee:	יעלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to reproduce:

1. Click on the main menu and scroll down to "צור קשר".
2. Rotate the screen to landscape mode.

Actual result:

The "צור קשר" page doesn't adjust properly to landscape mode, making it difficult to view or use.

Expected result:

The "צור קשר" page should adjust and display correctly in landscape mode, with all elements properly aligned and readable.

Attachments:

[SCC-36] [Duplicate " נגישות" Page Link in the Menu](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	עליז בילג	Assignee:	עליז בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S5- Low		

Description

Steps to reproduce:

1. Open the app and open the main menu.
2. Scroll down to find the " נגישות" pages.
3. Click on the first " נגישות" link.
4. Click on the second " נגישות" link.

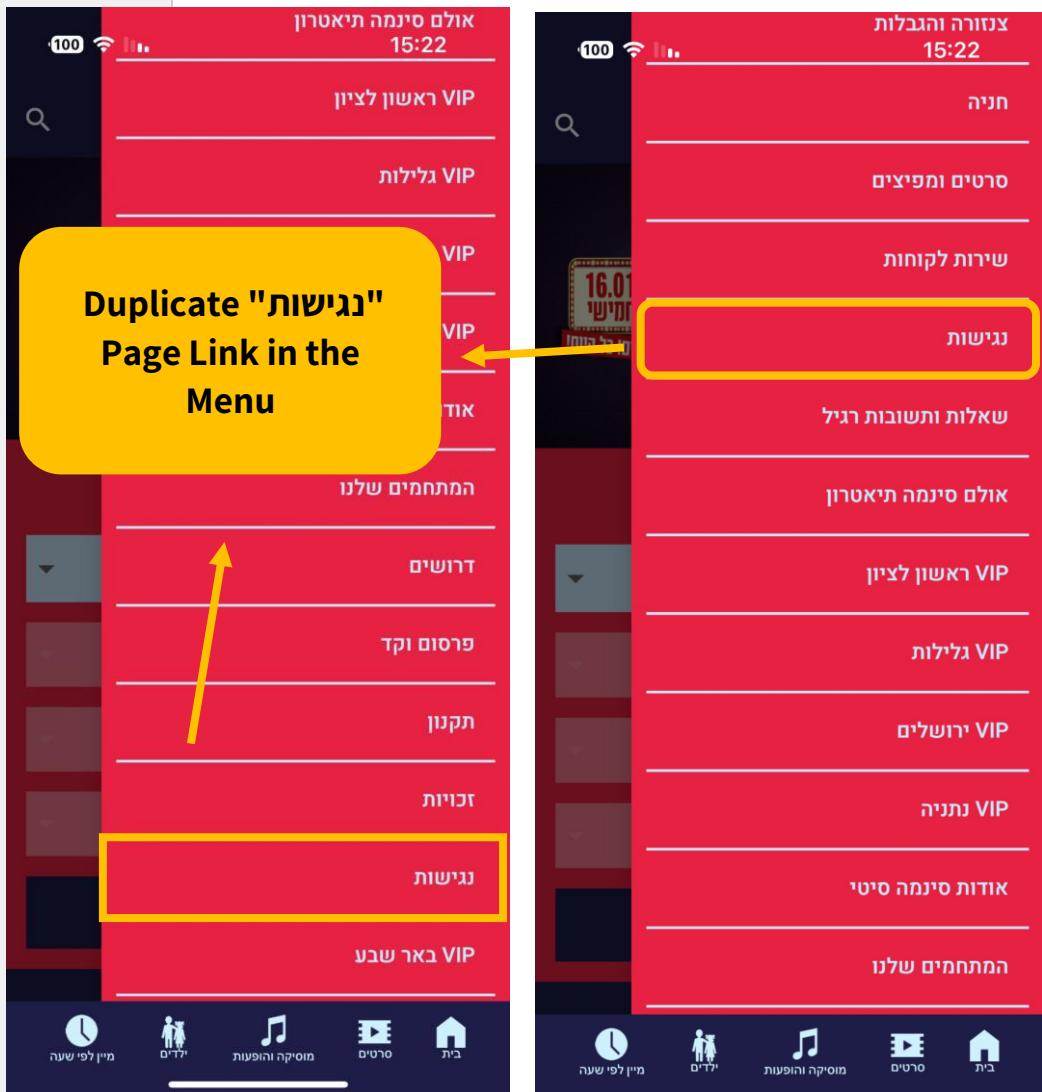

Actual result:

There are two links to the same page in the menu.

Expected result:

There should be only one link to the " נגישות" page in the menu.

Attachments:

[SCC-35] [Email Sharing button Not Working on Movie Page](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז בילוג	Assignee:	עליז בילוג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		

Severity:	S3- Major
------------------	-----------

Description

Steps to reproduce:

1. Open the app and search for the movie "cab amit".
2. Scroll down to the section titled "חיבים לשיתף חבר/ה".
3. Click on the email sharing button.

Actual result:

Nothing happens when clicking the email button, the email sharing link doesn't work.

Expected result:

Clicking the email icon should allow sharing the movie page via email.

Attachments:

[SCC-34] WhatsApp Sharing Button Not Working on Movie Page

Status:	To Do		
Project:	<u>STR- Cinema City</u>		
Type:	Bug	Priority:	High
Reporter:	עליז בילוג	Assignee:	עליז בילוג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3

Description

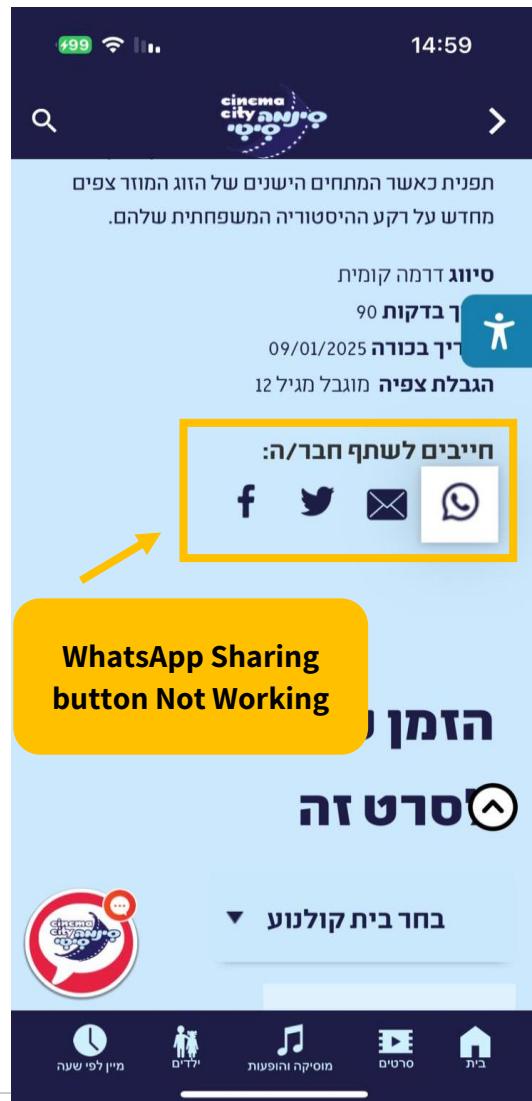

Steps to reproduce:

1. Open the app and search for the movie "cab amitai".
2. Scroll down to the section "חיבים לשתף חבר/ה".
3. Click the WhatsApp button.

Actual result: Nothing happens when clicking, the WhatsApp link doesn't work.

Expected result: Clicking the WhatsApp button should allow sharing the movie page on WhatsApp.

Attachments:

[SCC-33] The Seat Selection Page has not been loading for several days, preventing the completion of the purchase.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Highest
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S2- Critical		

Description

Steps to Reproduce:

1. Open the app while connected to a 4G internet network.
2. In the "סינמה סיטי באך שבע" window , select Cinema: "הזמןת כרטיסים" , select Date "15.1.25" , select Movie: " 200%" , select Time: "15:00"
3. Click on "הזמן עכשו" .
4. rotate the device screen.
5. Switch to a WiFi network.

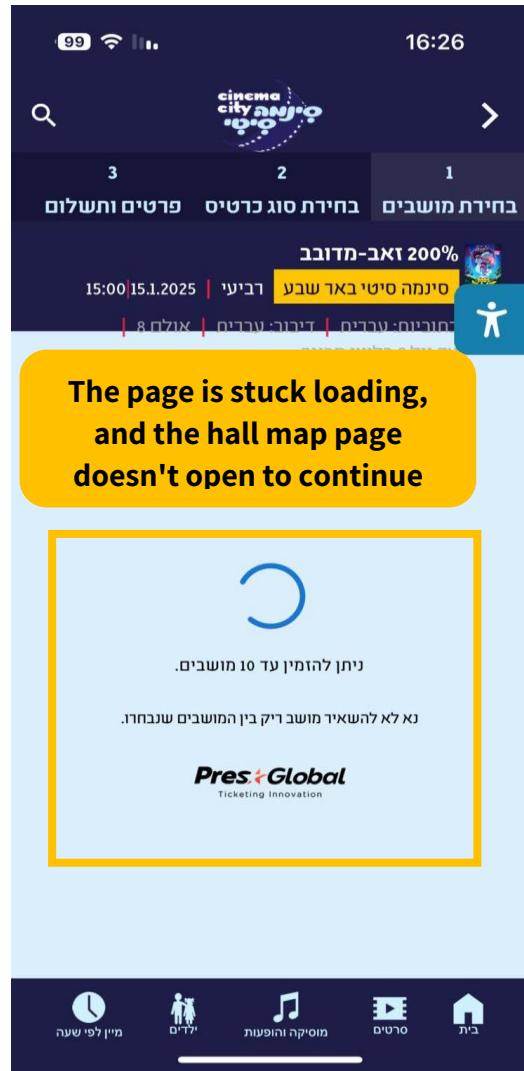

Actual Result:

The page opens but remains stuck, and the seating map does not appear.

Expected Result:

The page should load completely, displaying the seating map, and allow users to select their seats.

Attachments:

[SCC-32] Overlapping Text on Page

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי בילג	Assignee:	יעלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to Reproduce:

1. Open the app.
2. Navigate to the "Now in Theaters" page.
3. Review the movie titles and dates.

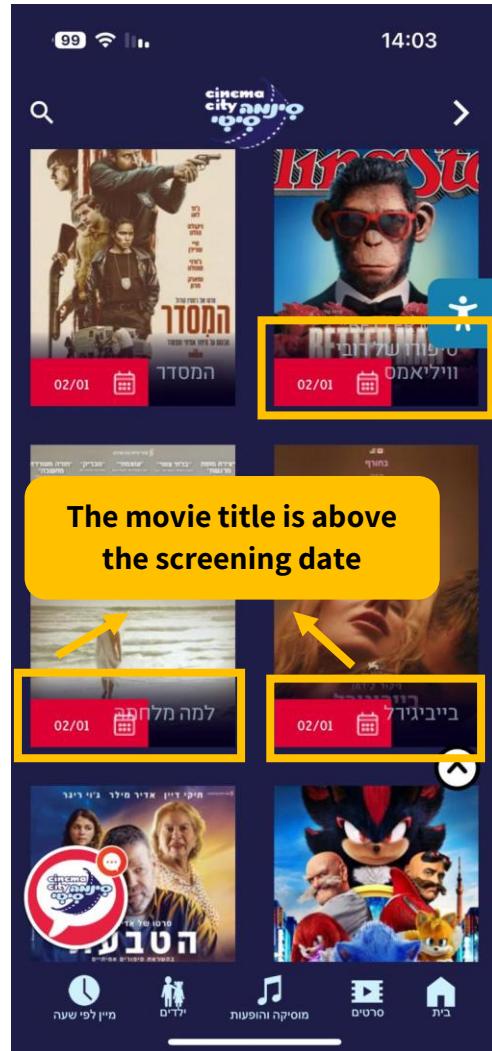

Actual Result:

The date field overlaps with other text, making some of the text hidden and difficult to read.

Expected Result:

All text should be displayed clearly, without overlapping, ensuring that movie titles and dates are legible.

Attachments:

[SCC-31] [Clicking on "lezmanet crtisim" in the movie page doesn't lead to the ticket booking window.](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	יעלי בילג	Assignee:	יעלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to reproduce:

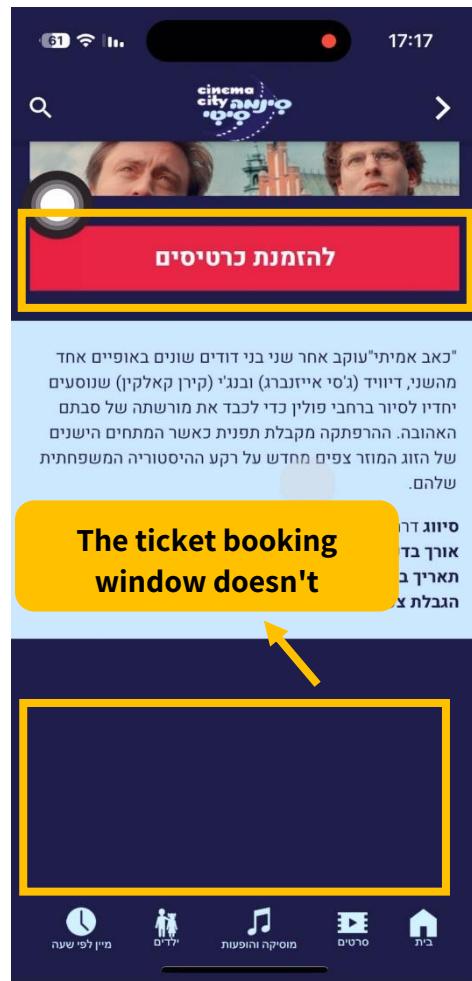

1. Open the app.
2. Navigate to "cab acmotti" movie page.
3. Click on "lezmanet crtisim".

Actual result:

The ticket booking window doesn't appear.

Expected result:

Clicking "For Ticket Booking" should lead to the ticket booking window, allowing users to proceed with selecting tickets.

Attachments:**[SCC-30] Text overlap in the page****Status:** To Do**Project:** [STR- Cinema City](#)

Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to reproduce:

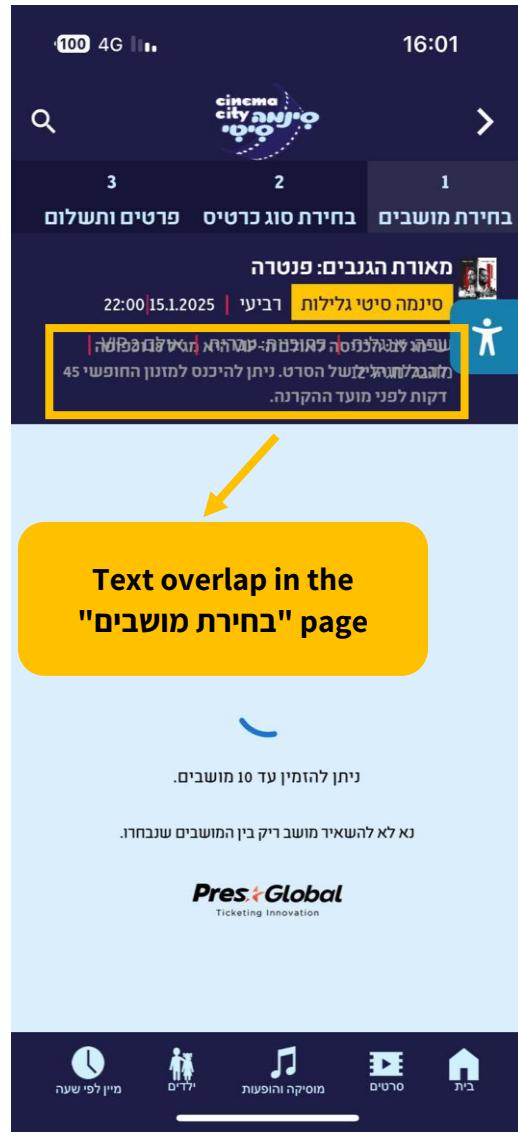

1. Open the app.
2. In the "Book Tickets" section, select Cinema (סינמה סיטי גלילות), Date (15.1), Movie (מאורת הגנבים - פנטזה), Time (22:00).
3. View the details at the top of the page.

Actual result:

Text overlaps with other text, making it unreadable.

Expected result:

Text should be displayed clearly without overlapping other elements, ensuring readability.

Attachments:

[SCC-29] [Invalid email with an incorrect domain suffix is accepted at the "פרטים ותשלומים" page](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High

Reporter:	יעלי בילוג	Assignee:	יעלי בילוג
Environment:	Device: iPhone 15 iOS Version: 18.2		
	 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to reproduce:

1. Open the app and choose a cinema, date, movie, and time.
2. Select valid seats and click "הבא".
3. On the "סוג כרטיס" page, click "הבא".
4. In the "פרטים ותשלומים" form, enter an invalid email with an incorrect domain suffix ("John@shish.c8").

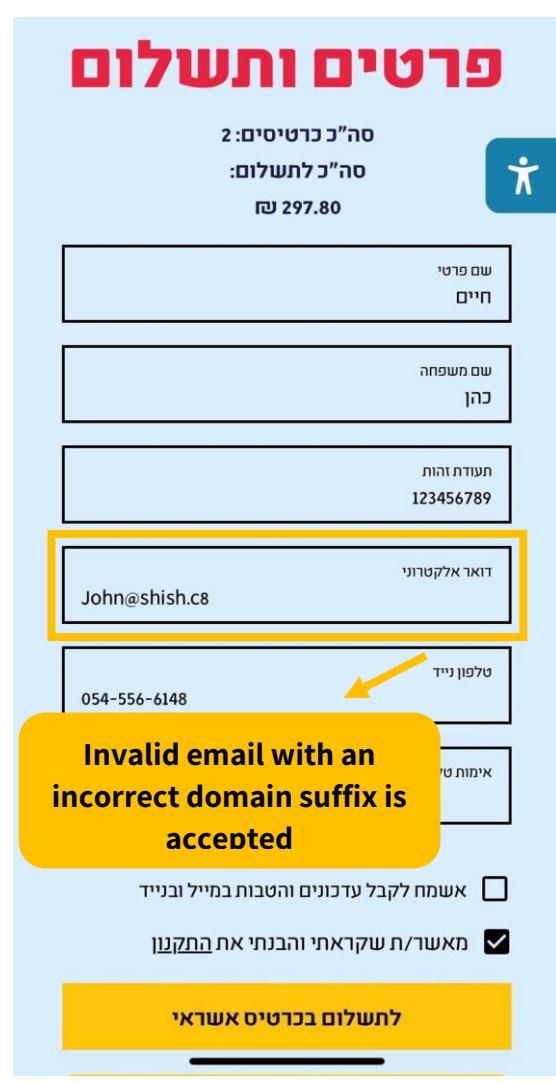

Actual result:

The system allows entering an invalid email with an incorrect domain suffix ("c8") without showing an error message.

Expected result:

The system should validate the email format and only accept valid email addresses. If an invalid email is entered, an error message should appear.

Attachments:

[SCC-28] Invalid email format is accepted in the "פרטים ותשלום" page

Status:	To Do		
Project:	<u>STR- Cinema City</u>		
Type:	Bug	Priority:	High
Reporter:	יעלי בילג	Assignee:	יעלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

1. Open the app and choose a cinema, date, movie, and time.
2. Select valid seats and click "הבא".
3. On the "סוג כרטיס" page, click "הבא".
4. In the "פרטים ותשלום" form, try entering an invalid email with special characters ("Jo!!hn@shsksn.co").

Actual result:

The system allows entering an invalid email with special characters without showing an error message.

Expected result:

The system should validate the email format and only accept valid email addresses. If an invalid email is entered, an error message should appear.

[SCC-19] The "פרטים ותשלום" form allows entering an invalid phone number, and no error message is displayed.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		

Severity:	S3- Major

Description

Steps to reproduce:

1. Open the app.
2. Select a cinema, date, movie, and time.
3. Choose valid seats and click "הבא."
4. On the "סוג כרטיס" page, click "הבא."
5. On the "פרטים ותשלום" form, fill in all required fields.
6. In the "מספר טלפון" field, enter 1234567890 (without the valid prefix 05X).
7. Complete the form, agree to the terms, and click "תשלום."

Actual result:

The system accepts the invalid phone number without displaying any error message, allowing the user to proceed with the payment.

Expected result:

The system should validate the phone number format and ensure it begins with a valid prefix (05X). If the number is invalid, an error message should appear, and prevent the user from continuing the process until corrected.

Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to reproduce:

1. Open the app.
2. Select a cinema, date, movie, and time.
3. Choose valid seats and click "Next."
4. On the "המשך" page, click "הבא."
5. On the "פרטים ותשלום" form, fill in all required fields.
6. In the "תעודת זהות" field, enter 1234 (invalid ID number, less than 9 digits).
7. Complete the form, agree to the terms, and click "לשלם."

Actual result:

The system accepts the invalid ID number without displaying an error message and allows the user to proceed with the payment process.

Expected result:

The system should validate the ID number format. If the ID is invalid- an error message should be displayed and prevent the user from proceeding until corrected.

[SCC-17] Missing Countdown Timer For Seat Reservation- Risk Of Duplicate Bookings When Multiple Users Select The Same Seats Simultaneously.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S2- Critical		

Description

Steps to reproduce:

1. Open the app.
2. Select a cinema (סינמה) movie (מופע) date (26.12.2024) time (23:15)
3. Proceed to the seat selection page.
4. Choose specific seats and observe that no countdown timer is displayed for the reservation.
5. From another device, select the same cinema, movie, date, and time.
6. Reserve the same seats.

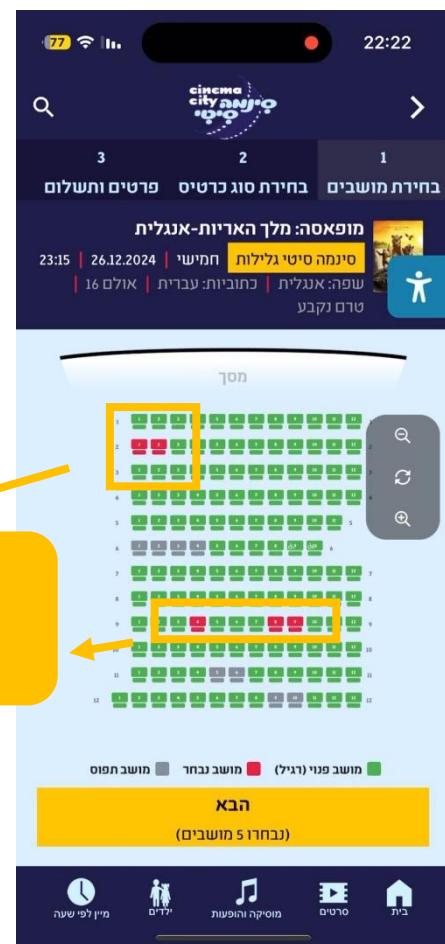

Actual result:

The absence of a countdown timer allows multiple users to select and book the same seats simultaneously, creating duplicate reservations.

Expected result:

A countdown timer (5-10 minutes) should be displayed after seat selection, indicating the reserved duration for completing the purchase. Selected seats should be locked for this time and displayed as unavailable to other users. If the timer expires without purchase, the seats should be released and become available again.

[SCC-16] The Top Banner Appears Without Images.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עלי בילג	Assignee:	עלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to reproduce:

1. Open the app.
2. Navigate between the banners.

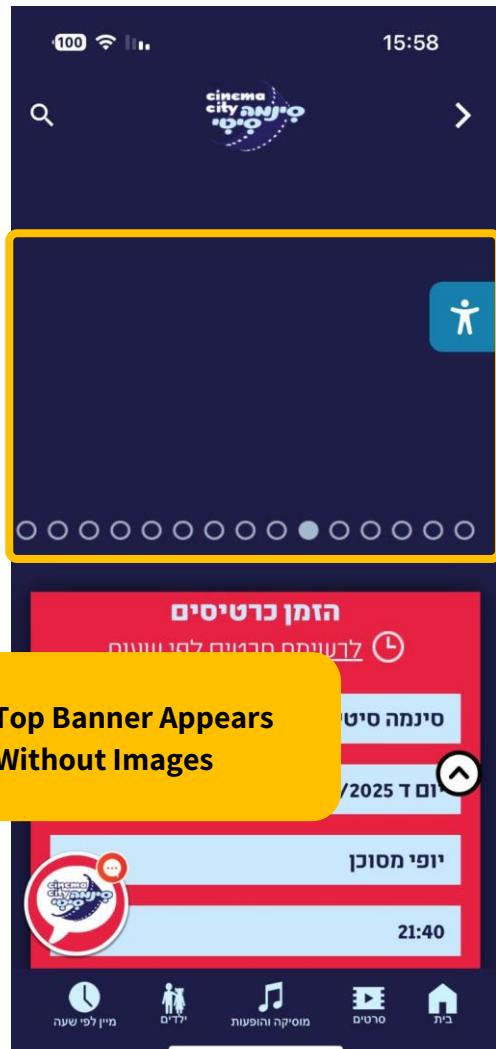

Actual result:

No images are displayed in the banners.

Expected result:

The banners should display advertisements with images as usual.

Attachments:

[SCC-15] [Missing images on the "המתחמים שלנו" page.](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי בילג	Assignee:	יעלי בילג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to reproduce:

1. Open the app.
2. Click on the top-right menu.
3. Scroll down and click on "המתחמים שלנו"."

Actual result:

Some images are missing on the page.

Expected result:

The "המתחמים שלנו" page should display all the images as intended.

Attachments:

[SCC-14] [Clicking on the "כנסים ויר漏ם" page from the menu opens a blank page.](#)

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	עליז ביליג	Assignee:	עליז ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S3- Major		

Description

Steps to reproduce:

1. Open the app while connected to 4G internet.
2. Click on the top-right menu.
3. Select the "כנסים ויר漏ם" page.
4. Rotate the screen to landscape mode.
5. Switch to a WiFi connection.

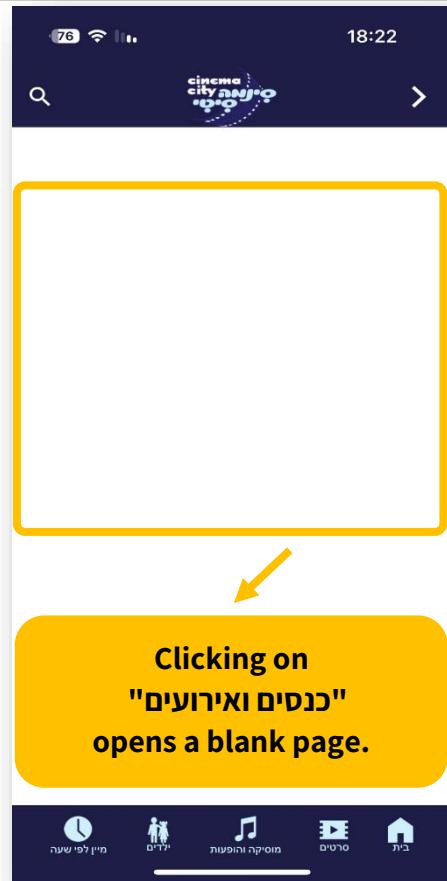

Actual result:

A blank page appears, regardless of screen rotation or switching to a different internet connection.

Expected result:

Clicking on the link in the menu should open the relevant page as it appears on the website, with proper display across all internet connections and screen orientations.

Attachments:

[SCC-13] The images on the "פרסום וקד" page are not properly adjusted to the screen and appear oversized without the ability to resize.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	Medium
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S4- Minor		

Description

Steps to reproduce:

1. Open the app.
2. Click on the top-right menu.
3. Scroll down and click on "פרסום וקד."
4. Scroll down the page to the images.
5. Rotate the screen to landscape mode.

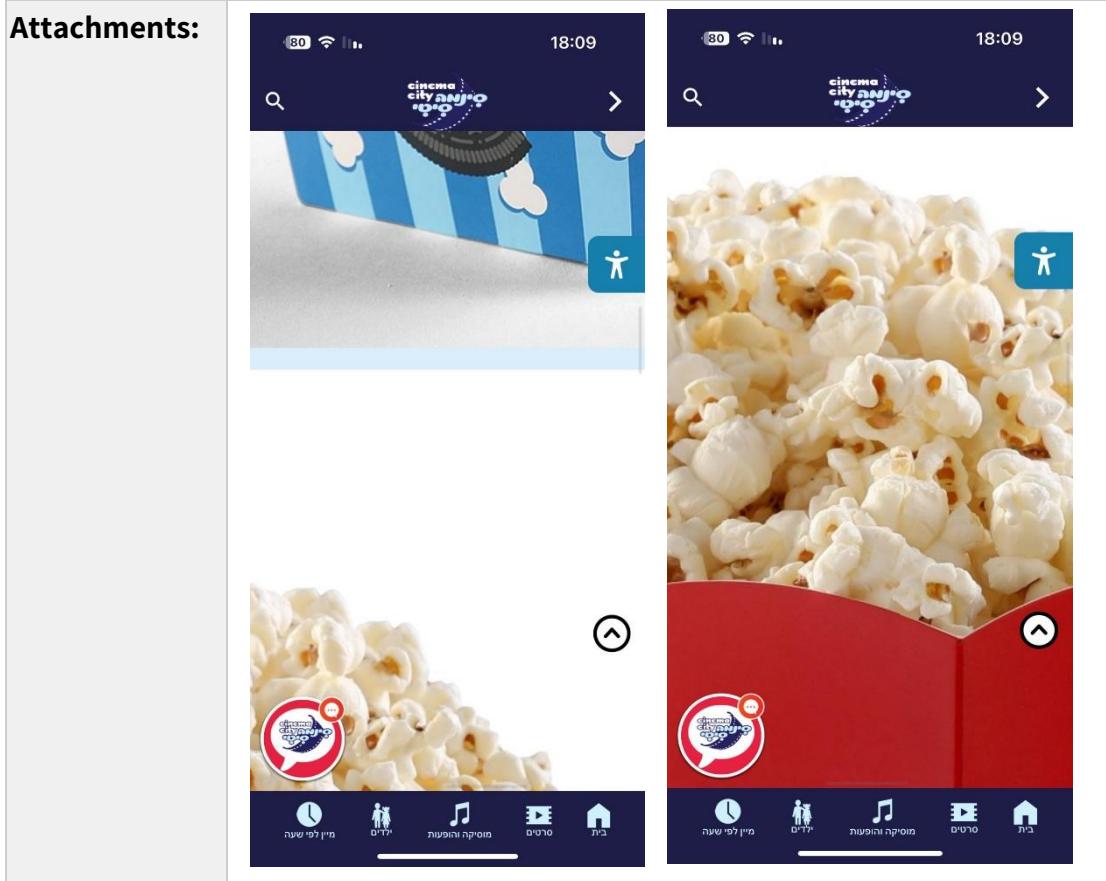

Actual result:

The images are oversized and do not adjust proportionally to the screen in any orientation. They cannot be resized or pinched to adjust their size.

Expected result:

The images should be appropriately sized to fit the screen in both portrait and landscape modes.

[SCC-10] Entering a valid phone number on the "בדיקה/ביטול הזמנה" page doesn't allow access to the personal area.

Status:	To Do		
Project:	STR- Cinema City		
Type:	Bug	Priority:	High
Reporter:	יעלי ביליג	Assignee:	יעלי ביליג
Environment:	Device: iPhone 15 iOS Version: 18.2 App Version: Cinema City 2.3		
Severity:	S2- Critical		

Description

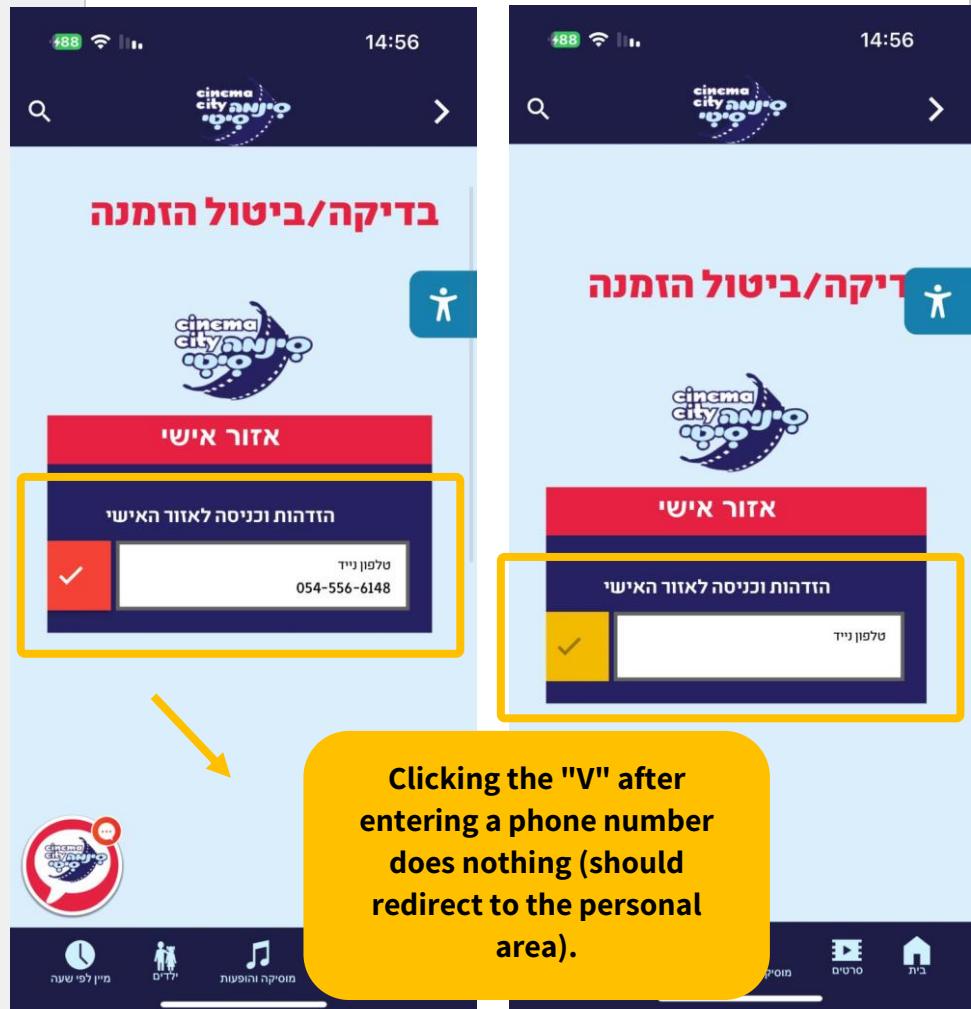

Steps to reproduce:

1. Open the menu from the top-right corner.
2. Click on the "בדיקה/ביטול הזמנה" button.
3. In the "אזרור אישוי" window, enter a valid phone number (0545566148).
4. Click the "V" button to login.
5. Rotate the screen to landscape mode.
6. Click the "V" button again.

Actual result: The page does not respond to the click, and access to the personal area is not possible.

Expected result: After entering a valid phone number and clicking the "V" button, the personal area should be accessible. If an incorrect or non-existent phone number is entered, an appropriate error message should appear.
